Yes — Registered cottage food operations may sell through various channels. The Utah Department of Agriculture and Food (UDAF) issues registration; local health departments do not have jurisdiction to regulate compliant cottage food operations except to investigate foodborne illness outbreaks. The state also has a separate Home Consumption and Homemade Food Act (Utah Code Title 4, Chapter 5A) that allows unregistered sales of certain homemade foods with a business license, but only at direct-to-sale farmers markets or direct-to-sale locations with appropriate signage. Food service establishments may not use cottage food products as ingredients in food served to the public.
