Executive summary

This report covers the Illinois cottage food framework — the state statute, the regulatory body administering it, what producers can and cannot sell, and county-level rules layered on top of state law for the 102 Illinois counties included in this dataset.

ANNUAL SALES CAP

none

FOOD HANDLER CERTIFICATION

yes (specific course)

DIRECT SALES ONLY

yes

REGISTRATION REQUIRED

yes

KITCHEN INSPECTION

upon-complaint

INDIRECT SALES (RETAIL/ONLINE/WHOLESALE)

no — Illinois prohibits sales to restaurants, retail stores, and wholesale; direct in-state sales are allowed anywhere including home, online, farmers markets, events, and roadside stands; non-perishable items may be shipped within Illinois only.

RESEARCH NOTES

Illinois has one of the most notable cottage food laws for its 'prohibited list' approach — operators can sell almost anything that is not explicitly prohibited, including many items other states ban. The 2022 amendment (PA 102-0633, SB 2007) was the major expansion that allowed all direct sales statewide (not just farmers markets), effectively replacing the old home kitchen operation law. A further 2025 amendment (PA 103-0903, SB 2617) made additional refinements. Registration is required with the local health department (up to \$50/year); if no local health department exists, register with an adjacent county's department. Food Safety Manager certification (CFPM-level, not just food handler) is required. Some local health departments may impose additional requirements (§410 ILCS 625/4(d)). State law preempts contradictory municipal restrictions in most cases. Acidified and fermented foods have special documentation requirements (food safety plan and pH test). Online sales are allowed but non-perishable items shipped within Illinois only; out-of-state shipping is prohibited.

Allowed foods

Illinois uses a 'prohibited list' approach — everything not prohibited is allowed, including baked goods, candies, condiments (honey, ketchup, mustards, nut butters, oils, pickles, salsas, sauces, syrups, vinegars), dry goods, pastries, preserves (including acidified foods and fermented foods with extra requirements), snacks, carbonated drinks, extracts, frozen produce, hardboiled eggs, and juices. Many perishable foods are allowed for direct in-state sales but may not be shipped.

Prohibited foods

Prohibited items include meat/poultry/fish/seafood/shellfish; dairy and eggs except as ingredients in non-PHF baked goods; custard/cream pies with hazardous fillings; garlic in oil (unless acidified); low-acid canned foods; sprouts; raw cut leafy greens; alcoholic beverages; and kombucha. Some items with special requirements (acidified foods, certain canned tomato products) are allowed with additional documentation.

Labeling requirements

Labels must include the product name, ingredients in descending order by weight, allergen information, net weight/volume, the city/unit of local government name, and the point-of-sale notice: 'This product was produced in a home kitchen not inspected by a health department that may also process common food allergens.' Products must be pre-packaged in the home kitchen; exceptions (e.g., wedding cakes) require local health department approval.

Statutory text — verbatim excerpt

Statute excerpt — verbatim

(410 ILCS 625/4) Sec. 4. Cottage food operation. (a) For the purpose of this Section: 'Cottage food operation' means an operation conducted by a person who produces or packages food or drink, other than foods and drinks listed as prohibited in paragraph (1.5) of subsection (b) of this Section, in a kitchen located in that person's primary domestic residence or another appropriately designed and equipped kitchen on a farm residential or commercial-style kitchen on that property for direct sale by the owner, a family member, or employee. (b) A cottage food operation may produce homemade food and drink provided that all of the following conditions are met: (1.3) A cottage food operation must register with the local health department for the unit of local government in which it is located, but may sell products outside of the unit of local government where the cottage food operation is located. (1.5) A cottage food operation shall not sell or offer to sell the following food items: (A) meat, poultry, fish, seafood, or shellfish; (B) dairy, except as an ingredient in a non-potentially hazardous baked good or candy; (C) eggs, except as an ingredient in a non-potentially hazardous food; (D) pumpkin pies, sweet potato pies, cheesecakes, custard pies, creme pies, and pastries with potentially hazardous fillings or toppings; (E) garlic in oil or oil infused with garlic, except if acidified; (F) low-acid canned foods; (G) sprouts; (H) cut leafy greens, except dehydrated, acidified, or blanched and frozen; (M) alcoholic beverages; or (N) kombucha.

Home kitchen rules

HOME KITCHEN ALLOWED	yes — In unincorporated Cook County, operators register with the Cook County Department of Public Health (CCDPH). Chicago residents must register with the Chicago Department of Public Health (CDPH) and obtain a CDPH food service sanitation certificate in addition to the ANSI-accredited CFPM certification required statewide. Many incorporated cities within Cook County (Arlington Heights, Chicago, Evanston, Oak Lawn, Oak Park, Orland Park, Schaumburg, Skokie, Tinley Park, Des Plaines) have their own cottage food rules.

Inspection & permitting

INSPECTION REQUIRED	upon-complaint — Consumer complaint or foodborne illness investigation; applicant must consent to inspection access upon registration.
---------------------	--

HOME OCCUPATION PERMIT	conditional — Unincorporated Cook County requires that home occupations be incidental to residential use. Home-rule cities within Cook County set their own rules; some require a home occupation permit. No specific Cook County cottage food home occupation permit requirement found for unincorporated areas.
LOCAL BUSINESS LICENSE	varies by city

Customer-facing rules

ON-SITE CUSTOMER PICKUP	conditional
ON-SITE SIGNAGE	no
DELIVERY / PICKUP RULES	State law allows direct-to-consumer sales. CCDPH registration limits sales to direct consumer channels; retail walk-in customers to home are effectively prohibited by Cook County home occupation rules in unincorporated areas.
MAX EMPLOYEES IN HOME	state baseline applies

Relevant county code

Cook County Code of Ordinances (home occupation provisions); CCDPH registration required under 410 ILCS 625/4

RESEARCH NOTES

Cook County has two distinct registration tracks: Chicago residents register with CDPH (additional sanitation certificate required); suburban Cook County residents register with CCDPH. Chicago's DCASE-sponsored farmers markets prohibit cottage food sales; independent Chicago farmers markets (CIFM) allow them. CCDPH application form requires Food Service Sanitation Manager Certificate (ANSI CFPM level). Some products not on standard list require lab testing to confirm non-PHF status. Note that state law was updated in 2022 (PA 102-0633) and 2025 (PA 103-0903) with broader allowed foods, but CCDPH application form from 2021/2022 vintage may not reflect all 2025 expansions.

Home kitchen rules

HOME KITCHEN ALLOWED yes — Must use primary residence kitchen on farm property or in home. Certified Food Protection Manager (CFPM) certification required for all persons who prepare or package food. Registration with Kane County Health Department required. Prohibited foods: meat/poultry/fish/seafood, dairy/eggs except as non-PHF baked good ingredients, garlic in oil unless acidified, low-acid canned foods, sprouts, raw cut leafy greens, alcoholic beverages, kombucha.

SEPARATE DEDICATED KITCHEN no

PET RESTRICTIONS No specific state cottage food pet restriction in 410 ILCS 625/4; general sanitation standards

WATER SUPPLY	If on private well, water testing may be required per Kane County Health Department registration
HANDWASHING	Required by CFPM certification standards; no separate specific provision
FOOD STORAGE	Standard home kitchen storage; products must be stored in primary residence

Inspection & permitting

INSPECTION REQUIRED	upon-complaint — No routine inspection required; Kane County Health Department may inspect upon complaint or safety concern. A home kitchen may be inspected if there is a regulatory concern per Kane County FAQ.
HOME OCCUPATION PERMIT	conditional — Kane County Health Department FAQ confirms cottage food operations may be sold from home as long as local zoning regulations are not inconsistent with state law (per IDPH Cottage Food Guide page 32). Operators must check with local city planning or Kane County zoning for home occupation requirements. Each municipality in Kane County (Geneva, Aurora, Elgin, etc.) has its own zoning code. Kane County Health Department registration is required and is specific to the one home kitchen location.

HOME KITCHEN ALLOWED	yes — Illinois cottage food law (410 ILCS 625/4, 2022 PA 102-0633 and 2025 PA 103-0903) uses a prohibited-list approach — operators can sell almost anything not explicitly prohibited. Food Safety Manager (CFPM-level, not just food handler) certification required. Registration with local health department required (up to \$50/year). Direct sales only (in-state). Champaign County is home to the University of Illinois; Champaign County Health Care Consumers and the county health department administer local registration.
SEPARATE DEDICATED KITCHEN	no
PET RESTRICTIONS	No explicit state-level pet restriction in Illinois cottage food statute. GMP practices apply.
WATER SUPPLY	No specific water testing requirement documented for Illinois cottage food operations.
HANDWASHING	Food Safety Manager certification (CFPM-level) required, which covers handwashing and hygiene standards.
FOOD STORAGE	All non-prohibited foods meeting standard GMP storage requirements. Acidified and fermented foods require a food safety plan and pH testing documentation.

Inspection & permitting

INSPECTION REQUIRED	upon-complaint — Local health departments may inspect upon complaint. Some local health departments (§410 ILCS 625/4(d)) may impose additional requirements; complaint-based inspection is the standard approach.
HOME OCCUPATION PERMIT	conditional — Champaign County (unincorporated areas) and cities (Champaign, Urbana, Savoy) may require home occupation permits for home-based businesses. Illinois state law preempts contradictory municipal restrictions on cottage food in most cases. Contact Champaign County Planning or relevant municipal planning department. RESEARCH NOTES

Illinois cottage food law (PA 102-0633 eff. Jan 1 2022; further amended PA 103-0903, 2025) is highly permissive with prohibited-list approach. Registration required with local health department (\$50/year cap). Food Safety Manager cert (CFPM) required — manager-level cert, not just food handler. All 43 counties in this batch are rural Illinois counties; state law strongly preempts contradictory local restrictions. Carroll County in northwest IL; county seat Mount Carroll. Rural, primarily agricultural. No county-specific cottage food deviations found. Local zoning may still regulate home occupation aspects (parking, signage, customer counts) consistent with state preemption. University of Illinois Extension and Illinois Stewardship Alliance offer county-level guidance. Research confirmed no county-specific overrides for these counties; medium confidence as county health dept websites not individually scraped.

RESEARCH NOTES

Illinois cottage food law (PA 102-0633 eff. Jan 1 2022; further amended PA 103-0903, 2025) is highly permissive with prohibited-list approach. Registration required with local health department (\$50/year cap). Food Safety Manager cert (CFPM) required — manager-level cert, not just food handler. All 43 counties in this batch are rural Illinois counties; state law strongly preempts contradictory local restrictions. Edgar County in east-central IL on Indiana border; county seat Paris. UI Extension covers Clark, Crawford, Edgar counties jointly. No county-specific cottage food deviations found. Local zoning may still regulate home occupation aspects (parking, signage, customer counts) consistent with state preemption. University of Illinois Extension and Illinois Stewardship Alliance offer county-level guidance. Research confirmed no county-specific overrides for these counties; medium confidence as county health dept websites not individually scraped.

Hardin County

Population 0 · State baseline: 410 ILCS 625/4 (Food Handling Regulation Enforcement Act) · **MEDIUM**

Home kitchen rules

HOME KITCHEN ALLOWED	yes — Must register with local health department (Hardin County Health Department or adjacent county health dept if none) for up to \$50/year. Certified Food Protection Manager (CFPM-level) certification required for all persons who prepare or package food. Inspection is complaint-based only. Illinois uses a prohibited-list approach — virtually all non-prohibited foods allowed for direct in-state consumer sales.
SEPARATE DEDICATED KITCHEN	no
PET RESTRICTIONS	No specific state prohibition; good manufacturing practice applies
WATER SUPPLY	Potable water required; if on private well, annual coliform testing may be required
HANDWASHING	Handwashing sink required in kitchen
FOOD STORAGE	Proper storage of shelf-stable and non-TCS foods; acidified foods require pH documentation and food safety plan; fermented foods have additional requirements

Inspection & permitting

INSPECTION REQUIRED	upon-complaint — Consumer complaint or suspected foodborne illness
HOME OCCUPATION PERMIT	varies — Hardin County local zoning ordinances may regulate home-based business activities (parking, signage, customer traffic). Illinois state cottage food law preempts local restrictions that are inconsistent with state law, but operators should verify home occupation permit requirements with the county zoning/planning office or municipality of residence.
LOCAL BUSINESS LICENSE	varies

Customer-facing rules

ON-SITE CUSTOMER PICKUP	yes
ON-SITE SIGNAGE	conditional

DELIVERY / PICKUP RULES Direct sales to consumers only (in person, at farmers markets, online orders). In-state shipping of non-perishable items permitted within Illinois. Out-of-state shipping prohibited. No third-party resale or distribution.

MAX EMPLOYEES IN HOME No specific limit; all food preparers/packagegers must hold CFPM certification

RESEARCH NOTES

Illinois cottage food law (PA 102-0633 eff. Jan 1 2022; further amended PA 103-0903, 2025) is highly permissive with prohibited-list approach. Registration required with local health department (\$50/year cap). Food Safety Manager cert (CFPM) required — manager-level cert, not just food handler. All 43 counties in this batch are rural Illinois counties; state law strongly preempts contradictory local restrictions. Hardin County in far southeastern IL; county seat Elizabethtown (on Ohio River). Smallest IL county; shares some services with adjacent counties. No county-specific cottage food deviations found. Local zoning may still regulate home occupation aspects (parking, signage, customer counts) consistent with state preemption. University of Illinois Extension and Illinois Stewardship Alliance offer county-level guidance. Research confirmed no county-specific overrides for these counties; medium confidence as county health dept websites not individually scraped.

RESEARCH NOTES

Illinois cottage food law (PA 102-0633 eff. Jan 1 2022; further amended PA 103-0903, 2025) is highly permissive with prohibited-list approach. Registration required with local health department (\$50/year cap). Food Safety Manager cert (CFPM) required — manager-level cert, not just food handler. All 43 counties in this batch are rural Illinois counties; state law strongly preempts contradictory local restrictions. Livingston County in north-central IL; county seat Pontiac. Rural agricultural county. No county-specific cottage food deviations found. Local zoning may still regulate home occupation aspects (parking, signage, customer counts) consistent with state preemption. University of Illinois Extension and Illinois Stewardship Alliance offer county-level guidance. Research confirmed no county-specific overrides for these counties; medium confidence as county health dept websites not individually scraped.

Home kitchen rules

HOME KITCHEN ALLOWED	yes — Must register with local health department (Logan County Health Department or adjacent county health dept if none) for up to \$50/year. Certified Food Protection Manager (CFPM-level) certification required for all persons who prepare or package food. Inspection is complaint-based only. Illinois uses a prohibited-list approach — virtually all non-prohibited foods allowed for direct in-state consumer sales.
SEPARATE DEDICATED KITCHEN	no
PET RESTRICTIONS	No specific state prohibition; good manufacturing practice applies
WATER SUPPLY	Potable water required; if on private well, annual coliform testing may be required
HANDWASHING	Handwashing sink required in kitchen
FOOD STORAGE	Proper storage of shelf-stable and non-TCS foods; acidified foods require pH documentation and food safety plan; fermented foods have additional requirements

Inspection & permitting

INSPECTION REQUIRED	upon-complaint — Consumer complaint or suspected foodborne illness
HOME OCCUPATION PERMIT	varies — Logan County local zoning ordinances may regulate home-based business activities (parking, signage, customer traffic). Illinois state cottage food law preempts local restrictions that are inconsistent with state law, but operators should verify home occupation permit requirements with the county zoning/planning office or municipality of residence.
