Zoning / home occupation

Conditional. No state food permit required. However, each municipality (city/town) may require a local business license. The county health department provides a written confirmation of document review, which may be needed for the business license process. Check with local city or county clerk.

Health

No. State law (§22-20-5.1(b)) explicitly states cottage food operations are not required to have a food service permit and county health departments may not regulate production except as provided by the section. Inspection only upon suspected foodborne illness investigation.

Business license

Yes

Pickup / delivery

Direct sales to consumers permitted in person, by phone, online, or via mail within Alabama. Delivery may be in person, by an agent, or by mail. Interstate shipping not permitted under Alabama cottage food law.

If you rent a commissary kitchen

A commercial kitchen is a food establishment. Alabama cottage food is not a food-service permit. A commissary, restaurant, or shared kitchen is a food establishment permitted by the county health department. Ask that office for the food-facility application, not the cottage-food form.

This file is the home-kitchen path. A rented kitchen uses a different permit. Ask the kitchen manager which license they expect, then call the local health office.
