Zoning / home occupation

Conditional. Alexander County is a small, rural, economically distressed county in far southern Illinois (pop. ~5,800). No specific Alexander County home occupation zoning ordinance was found in research. Illinois state law (410 ILCS 625/4(d)) notes that local health departments may impose additional requirements; however, state law generally preempts contradictory municipal restrictions on cottage food sales. Operators should register with the Alexander County Health Department and confirm whether any county or Cairo city zoning permits are required for home-based food businesses.

Health

Upon-complaint. IDPH or local health department may inspect upon complaint. Routine inspections not required for registered cottage food operators.

Business license

Varies

Pickup / delivery

Illinois cottage food allows direct sales; home pickup is permitted. Online sales with local delivery permitted for non-perishables. No out-of-state shipping.

If you rent a commissary kitchen

Local health departments license food facilities. Illinois cottage food registers with the local health department. A commissary or restaurant is a retail food establishment, also at that department, on a different permit.

This file is the home-kitchen path. A rented kitchen uses a different permit. Ask the kitchen manager which license they expect, then call the local health office.
