Where to file

State

Nevada registration: Yes. Routine kitchen inspection: No. Under the pre-2025 law (NRS 446.866), sales must be in-person transactions only — no internet or phone sales. Products may not be sold to wholesalers, brokers, distributors, or retail establishments for resale. AB352 (2025) amends this to allow phone and internet transactions with delivery via mail or food delivery service, but product relinquishment must still occur in Nevada. Local rules vary significantly: Clark County (Las Vegas), Washoe County, Carson City, and Douglas County have separate health authority requirements.

Zoning / home occupation

Conditional. SNHD FAQ advises operators to check with local business license jurisdictions (Clark County, City of Las Vegas, Henderson, North Las Vegas, Mesquite, Boulder City) for any business license requirements. No specific county-level home occupation permit requirement identified for cottage food.

Health

No. No routine inspection; SNHD registration does not include kitchen inspection. SNHD may investigate complaints. Cottage food operations are excluded from the definition of 'food establishment' under NRS 446.020.

Pickup / delivery

Current law (through July 2027): direct person-to-person sales only; no internet/phone sales; no wholesale or consignment. AB352 (eff. July 2027) will allow internet/phone sales with in-person or mail delivery. Partners and employees not permitted under current law.

If you rent a commissary kitchen

Local health authorities permit food establishments. Nevada cottage food is a home path. A commissary is a food establishment permitted by the local health authority (for example SNHD in Clark County).

This file is the home-kitchen path. A rented kitchen uses a different permit. Ask the kitchen manager which license they expect, then call the local health office.
