Where to file

State

Nevada registration: Yes. Routine kitchen inspection: No. Under the pre-2025 law (NRS 446.866), sales must be in-person transactions only — no internet or phone sales. Products may not be sold to wholesalers, brokers, distributors, or retail establishments for resale. AB352 (2025) amends this to allow phone and internet transactions with delivery via mail or food delivery service, but product relinquishment must still occur in Nevada. Local rules vary significantly: Clark County (Las Vegas), Washoe County, Carson City, and Douglas County have separate health authority requirements.

Ask Planning before you advertise pickup at the house.

If you rent a commissary kitchen

Local health authorities permit food establishments. Nevada cottage food is a home path. A commissary is a food establishment permitted by the local health authority (for example SNHD in Clark County).

This file is the home-kitchen path. A rented kitchen uses a different permit. Ask the kitchen manager which license they expect, then call the local health office.
