Not legal advice. Rules change. Confirm with the office before you file.

Where to file

State

Utah registration: Yes. Routine kitchen inspection: No. Registered cottage food operations may sell through various channels. The Utah Department of Agriculture and Food (UDAF) issues registration; local health departments do not have jurisdiction to regulate compliant cottage food operations except to investigate foodborne illness outbreaks. The state also has a separate Home Consumption and Homemade Food Act (Utah Code Title 4, Chapter 5A) that allows unregistered sales of certain homemade foods with a business license, but only at direct-to-sale farmers markets or direct-to-sale locations with appropriate signage. Food service establishments may not use cottage food products as ingredients in food served to the public.

Statute: [Utah Code §4-5-501](#)

Zoning / home occupation

Conditional. Weber County and City of Ogden may require home occupation permits under local zoning. Utah cottage food law preempts local health dept regulation of registered operations but does not explicitly preempt zoning. Producers should check with Weber County Planning Division or City of Ogden.

Health

No. No routine inspection; local health departments have no jurisdiction over compliant registered operations

Business license

Varies

Pickup / delivery

Both direct and indirect sales allowed under UDAF registration. Online sales, delivery, retail sales all permitted. Home Consumption Act pathway limits to direct-market only.

If you rent a commissary kitchen

UDAF cottage food is not a food-service permit. Utah cottage food is a UDAF registration. A commissary is a food establishment permitted by the local health department.
