Not legal advice. Rules change. Confirm with the office before you file.

Where to file

State

West Virginia registration: Depends. Routine kitchen inspection: Upon-complaint. Cottage food must be sold directly to consumers. The new Article 40 (effective June 12, 2026) establishes that potentially hazardous cottage food vendors need a statewide permit but nonpotentially hazardous food sellers are fully exempt from permit and inspection. Local health departments may invoke cessation of production only if an imminent health hazard exists, in consultation with the Department of Agriculture. The input batch cited §16-7-1 (a general adulteration statute), but the operative cottage food framework is now Article 40 (§19-40-1 through §19-40-6), signed March 27, 2026.

Zoning / home occupation

Conditional. Greenbrier County is in the southern mountains of West Virginia, home to the historic Greenbrier resort and the charming town of Lewisburg (recently named a 'Coolest Small Town'). The county may have more developed local planning given its tourism economy. Home occupation rules may apply in Lewisburg city limits; unincorporated areas likely have minimal zoning. Verify with the Greenbrier County Commission or Lewisburg city government.

Health

Upon-complaint. Consumer complaint or suspected foodborne illness investigation by WV DHHR. WV Code §19-40-5 authorizes WVDA inspection for potentially hazardous cottage foods.

Business license

Conditional

Pickup / delivery

Direct to consumer sales permitted under WV law. Customer pickup at home is generally allowed. Delivery also allowed. All sales must remain within WV.

If you rent a commissary kitchen

A commissary is a food establishment, not cottage food. West Virginia cottage food is a home path. A commissary is a food establishment permitted by the local health department.
