How to use this template

Replace product name, business name, address, ingredients, and net weight for each SKU. Keep allergen statements in plain English. Do not paraphrase required disclaimer language when the state mandates exact wording.

Federal baseline (every state builds on this)

Most cottage food laws assume you still follow core federal food-labeling ideas for packaged foods sold to consumers. States add home-kitchen disclaimers, registration numbers, county names, or exact wording on top.

Product identity: Common or usual name of the food (plain English).

Ingredients: List in descending order of predominance by weight, including sub-ingredients where required.

Major allergens (FALCPA / FASTER Act): Milk, eggs, fish, Crustacean shellfish, tree nuts, peanuts, wheat, soybeans, and sesame — declare when present (e.g. “Contains: Wheat, Milk”).

Net quantity: Net weight or volume in U.S. customary (and often metric) units.

Producer identity: Name and contact/address or a state-allowed substitute ID number.

State cottage disclaimer: Exact “made in a home kitchen / not inspected” wording when the statute mandates it.

How to use each state page

- Copy the **required disclaimer exactly** when the state publishes mandated wording (often all caps).
- Replace product name, bakery name, address or registration ID, ingredients, allergens, and net weight for every SKU.
- Open the **official agency URL** on the page and re-check before market season — legislatures amend cottage food acts frequently.
- Pair this pack with Crosodo’s official label-example screenshots and free per-state PDFs at https://crosodo.com/resources/label-templates

North Carolina labeling notes

Statute: 02 NCAC 9C.0307

Font requirement: (none specified)

Required disclaimer: (no exact wording mandated)

Summary: Labels required on individually packaged products for self-service sale or wholesale: product name, ingredient list in descending order by weight, net quantity, processor name and address, and all allergens. Nutritional labels not required unless specific nutrient content claims are made. Products sold directly hand-to-consumer at events may be exempt from affixed labels if ingredient info is available on request.
